

Mission Statement

Serra Manufacturing Corporation is a precision stamping company that has machining capabilities to serve a variety of demanding industries including aerospace, military and medical. Since 1959, our vision is to manufacture quality and innovative products that provides our customers with a competitive advantage and allows our business to continually pursue profitable growth. Our focus on the latest AS9100, ISO9000 and Six Sigma industry standards and methodology enables us to achieve consistent quality, on time delivery and complete customer satisfaction. Since its inception, Serra Manufacturing Corporation leaders are stewards to their employees which creates a personal responsibility to their well-being. Our employees live by an established code of conduct aimed at performing with integrity and conducting ourselves ethically. We do this by practicing our core values that help Serra Manufacturing Corporation build bonds of trust, which lead to stronger and more enduring relationships. It's these trusted relationships that create the opportunity for new and repeat business and strong partnerships with our suppliers.
